Maintenance performed by

Check off each box as it's performed:

**Keys to launches are in launch key cabinet. If it is locked, ask someone in charge for the code. Return keys to locked cabinet after cleaning launches*

☐ Use a stiff scrub brush with Simple Green and water scrub the entire boat including the floats. If the boat is still in the water make every effort to scrub below the waterline.

☐ Inspect floats for damage, mark damage on the drawing below.

☐ Check that all gas tanks have working vented caps.

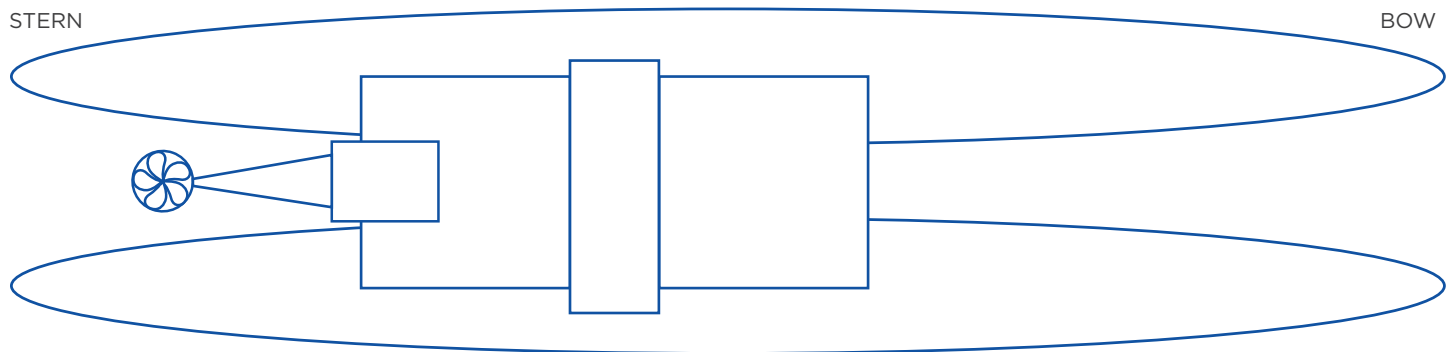

☐ Check prop protector for damage (aluminum circle around the prop).

☐ Check prop for damage.

☐ Make note of any loose screws

☐ Inventory launch box (list of contents inside box)

Mark damage:
